ANOTHER ATOMIC EXPLOSION IN SOVIET RUSSIA

Three Russians, Three Germans Built The Bomb FIRST TWO WERE DUDS

New York, September 24. The Mutual Broadcasting System said today that their correspondent in Sweden reported a second atomic explosion in Russia.

Reds Seize Two Towns In Kwangtung

Canton, September 24. Two important towns inside the Kwangtung border have fallen to the Communists, according to a usually reliable report reaching Canton.

They are Nanhsiung and Chihing, on the Kanchow-Kukong highway 155 and 135 miles North North East of Canton respectively.

regiments of General Keng's forces assisted by gueril-

This report has not been confirmed officially, but tele-coramunications between Canton and these two towns have been cut.

At the same time a Communist force launched a surprise attack on the Canton-Hankow railway between Chenhsien and Pingshih. in Southern Hunan.

Rail traffic was disrupted for a short period.

Some civilians were reported. to have evacuated Kukong, 124 miles North of Canton.

The number of troops involved in these actions was small.

They are not regarded as start of the anticipated-all-out offensive on South China.

The military spokesman said today that the Communist guerillas encircled by the Nationalists in the Yungyun district, South Fast of Kukong, were likely to be wiped out shortly.

Amoy Situation

The situation at Amoy, South East China, is critical.

Nationalist reinforcements, assisted by naval and air force units, have landed on the mainland opposite Kularigsu Island.

Fighting has taken place at several points on the mainland and the Communists are reported to have suffered 10,000 casualties in the past few days.

The spokemen admitted that some of Guicral Chen Yi's troops had crossed to the South bank of the Kiulung River and were row threatening Amoy from the West.

General Tang En-po is still in command of the Nationalist defenders at Amoy.-Reuter.

Sentenced To Death

Budapest, September 24. A people's court today sentenced Laszlo Rajk, former number two Communist, and two of his seven co-defendants to die for plotting to supplant Hungary's Government by a regime obedient to Yugoslav Marshal Tito.

Two other defendants sentenced to tife imprisoranen and another to nine years.

But the court passed no sen tence on the other two defendants Lieutenant - General Gvorgy Palify, former chief of the Hungarian Army, and Bela Korondy Colonel of Police: The court said it was not competent to

for court martial. Sentenced with Rajk to die were Dr. Tibor Szosnyi, former member of Parliament and

Communist. Party official, and Andres Szalai, another party official. Life !sentences were impose on Lazar Brankov, Coursellor of the Yugoslav Embassy, and Pa Justus, a member of Parliament

and President of the Hungarian Milan Ognyenovics, a confessed Yugoslav professional spy, was sentenced to nine years' impri-

ronment.

The indictment against Raik, former Foreign Minister, and Interior Minister, accused him working with an American spy ring and plotting with Tito to bring about the downtall of the Budapest Government. During the trial the defendants, had eargerly admitted most of the accusations against them and even elaborated on the Government's charges.

The verdicts were read by Judge Peter Janko before a courtroom crowded with 300 tense peciators. The court pointed out that all the convicted have the right to appeal against their sentences -

PRICES FROZEN AT LEVEL OF SEPTEMBER 17

Government yesterday froze the prices of all articles and commodities at the basic prices that prevailed on September 17.

A special Order by the Acting Director of Supplies and Distribution was mude in a "Government Gazette Extraordinary."

The Director, Mr. D. C. Barty, had previously warned merchants against increasing prices following the devaluation of the pound sterling.

order covers both wholesale and retail prices prevailing on September 17 but does - not affect commodities which are already price-controlled and vary from time to time.

An official explanatory note states that since the announcement of the devaluation of sterling a tendency to increase prices has been observed. The new order imposes a "freeze" on prices. wholesale and retail, of articles of any description to a basic price prevailing on September 17. The Order states:-

"Subject to the exemption specified in paragraph 8 of this Order, it shall be unlawful for any person to sell, agree to sel or offer to sell, articles of any description in the course of any business at a price which exceeds the basic price.

"(1) In this Order the expression "basic price" means, in relation to articles of any description sold, agreed to be sold o offered for sale, the price a which, in the ordinary course the business in which such articles were sold, agreed to be sold, or offered for sale, articles of that description were being offered tor sale at the seventeenth day of September nincteen hundred

and forty-nine /-"(2). In relation to articles. any description sold, egreed to sold or offered for sale, in the by the as General Gorden on course of a business which in- Tuesday." cluded both a wholesale and a acter or otherwise howsoever distinguishable, the reference in sub-paragraph/(1) of this paragraph to the business in the course of which such were sold, agreed to be sold: offered for sale, shall be strued as a reference to the particular branch of that business the course of which the transaction was effected.

New Business

any description sold, agreed be sold or offered for sale, in the course of a business, or of branch of a business, which was not being carried on at the date as at which the basic price those articles is to be ascertained, or in the course of which articles of the relevant character. were not being offered for sale stop after leaving Shanghai.

Yesterday's price freezing, at that date, the preceding provisions of this paragraph shall have effect with the substitution, for the reference in sub-paragraph (1) thereof to the business in the course of which those articles were sold, agreed to be sold or offered for sale, of a reference to some business similar to that business, or to a branch of some business similar to that branch of that business, which was then being carried on, or in the course of which articles of the relevant character were then being offered for sale, as the case may be.

AIRCRAFT MAINTENANCE INDUSTRY IN HONG KONG

The rapid rise of Hong Kong as a world ranking international civil air base has given life to a comparatively new branch of business in the Colony in the development of the aircraft maintenance industry.

Servicing some 60 to 70 airline companies operating into and through Hong Kong are two large aircraft maintenance organisations-Jardine Aircraft Maintenance' Company Limited (commonly referred to as JAMCO), an associated company of Jardine Matheson's; and Pacific Air Maintenance and Supply Company Limited (PAMAS):

of the China National Aviation Corporation.

With Government scaling off CNAC's workshop last week after the Corporation had stood firm against Government's pre-vious notice to leave Kai Tak, the servicing department CNAC is now in a paralytic state. leaving JAMCO and day at the Roof Garden, Hong PAMAS as the only two main- Both JAMCO and PA tenance organisations to operate. tenance organisations to operate. have a hanger capable of accomlargest and busies: the three servicing

> Corporation's ranks as the finest and biggest in the whole of the Orient. It catered principally to its own huke fleet of aircraft but at the same like both LJAMCO PAMAS, serviced planes of other

> and servicing the minous Hump flights. After the Japanese surrender in 1945, CNAC packed and moved into Shanghai, a strategic base from which the Corpora-

Corporation was soon move again however. This came about when the Communists in their Southward drive early this year approached Shanghai CNAC pulled out in time and settled down in Hong Kong.

The transplanting of the works of the CNAC's servicing depart ment reached 20 per cent completion, when Government action took effect last Tuesday. On the other hand, CNAC had been given two months notice to make room for Government requirements. For the time being therefore, CNAC as a maintenance service

in the Colony must be discounted. JAMCO came into existence in November 1947 and develop ed from a small body of BOAT engineers here to service BOAC flying bosts.

Route Service The first objective of the company was to provide route service-for any users-and-main base

maintenance for Hong Kong Airof complete aircraft and the benefit of his recommendations. overhauling of engines and acradar gear and instruments.

JAMCO's service has extended under Dr. Love at Cornell to all work for BOAC and Hong they were later associated dian Pacific Air Lines, Bharat Airways, Air France, Braathem, CATC. Trans Ocean Airlines and various private owners operators in Hong Kong and

At present JAMCO operations are restricted to Hong Kong, but development will take place areas where opportunity occurs and where there is a requirement for such services, the "Sunday Herald" learned.

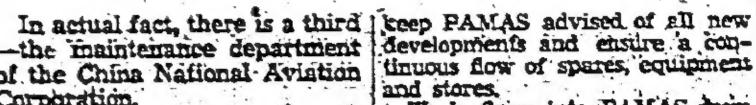

The development of JAMCO can be seen in the staff roll of the company today as compared with 1947. Today JAMCO lists some

personnel, This includes 20 Brigineers with the remainder locally recruited personnel.

JAMCO's "American department" consists wholly of American engineers who are mainly concerned with the overhaul of the Prait and Whitney engine. PAMAS began functioning for the Forces.

ganisation on July 15 1948. In cluded a Donald Duck and Pluto stall strength, however, PAMAB carroon, was kindly arranged by granted to Frederick Howard compares with JANCO, having Mr. T. A. Madar. some 200 employed including 27 European engineers and administrative personnel. Founded with British capitals

PAMAS, through His liaison with experienced aviation associate companies, has been able to obtain all required qualified technical assistance. Agents in Britain. America and

Work flows into PAMAS from eight different countries, servicing airlines which include PAL, PAA, CPA, MATCO, TAA, CAT, Air Bunna, Malayan Airways, Siamese Airlines, POAS, SITA (a French airline company operating in Indo-China), the

Both JAMCO and PAMAS each of these hangers measures from 24,000 to 28,000 square feet.

JAMCO's operation area at Rai Tak includes steel framed aluminium - sheeted prefabricated workshops for all general services and an engine overhaul shop; an administrative-cum-stores building onto which the company has built the control tower for the Hong Kong Government and a twin mounting engine test bed on

PAMAS' area is situated adincent to JAMCO on the North and covers some square feet of floor space on which stand PAMAS' administrative and

"I am aware that this is a very sweeping statement, but the job required a man with a very special understanding of the people and of the undertaking and also a human understanding.

"It was on August 13, 1945. that General MacArthur and set up his first Japan Headquarters in Yokohama and today the first thing that must impress a visitor to Japan, I think, is the wonderful job he has done. "General MacArthur has re-

yealed that he is not only a great coldier but also must be ranked as one of the world's greatest

those which had to be solved uring the past four years. Japan has now been demilitarised and the other original objectives of the Occupation have been com-

"The present primary concern is with Japanese economic problems as part of the programme of putting a defeated nation back on its feet again. I may mention here that Japan has already eached industrial production recovery estimated at 78 per cent of the peacetime 1932-36 period.

"At one stage it seemed tha Communism was a real dange but it is considered that it is now no longer a major issue in Japan ese life.

Shipbuilding

Japan must have repercussions other countries. In this regard want to consider the shipbuilding industry for a moment. Last April, when speaking from this Station, I mentioned the progress the Japanese shipbuilding industry was then making. To underline this I would now mention that when I was in Japan early this month two 9,000 ton cargo ships, two 18,000 ton tankers and three 5,000 ton cargo ships were under construction to foreign or ders and, may I point out, these ships are being built to Lloyd

"The countries being built for are Denmark, France and Sweden. Reports say that about 90 per cent of ships now building Japan for foreign orders are being built to Lloyds specification specifications approved

highest degree of workmanship "The President of the Japan Shipbuilders' Federation only recently that Japan was anxious to model her shipbuilding industry on the line of the industry in England and to this end advice of English shipbuilding experts is being

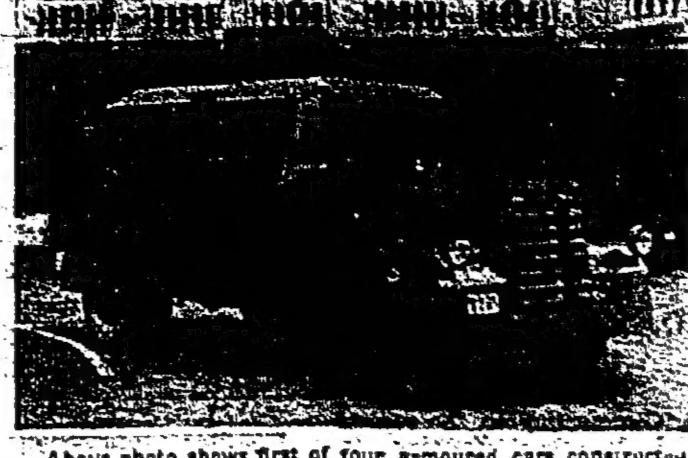

eased by SCAP states that the 1948 death rate in Japan was the lowest ever recorded. It is claimed that the reduced death rate is a reflection of the considerable progress made in the control disease since the war. An standing example of disease con trol is smallpox. In 1946 it spread to epidemic proportions before being brought under control but in 1948 only 22 persons died from this. Smallpox in Japan conquered by vaccinating

entire Japanese population. the fact that the Boy Scout movement in Japan has been reorganised since the war, and towards the end of this month the first post-war convention of leadere is to be held. It is also planned for some 500 scouts to hold a two-day Jamboree in the Imperial Plaza grounds about the same time as the convention.

Hydroponic Farming Not Suitable For HK

Adoption of hydroponic farming in Hong Kong to increase the Colony's vegetable production would be of little value if it could not be done on a proper commercial basis.

The Reverend Fr. Thos. F. Ryan, SJ, who was at one time Agricultural and Forestry Officer, said this... yesterday.

Commenting on the successful hydroponic farming experiments in Japan by the American Occupation authorities. Fr. Ryan said that any system of growing additional vegetables is obviously of interest to Hong Kong.

"The hydroponic method of cultivation, however, is not yet a practical proposition," said Fr.

He added: "What is being done in Japan could be repeated here, but the production would not be at an economic rate.

"I think it is correct to say that nowhere have vegetables been produced from hydroponic beds at less than 25 per cent above the cost of soil production, and this does not take account of the considerable capital outlay on the preparation of the beds."

Local experiments in method of farming should produce useful information, as the science of hydroponies is still so far from being fully developed, said Fr.

Ryan. He added that there was one interested amateur who proposed undertaking such experiments about three years ago. His plans, however, did not mature.

"if anyone else should engage in them, it may ultimately prove of considerable value, but as we are now concerned with urgent problems of supply and have to limit our expenditure to essentials it would not seem worth while to devote public funds to this purpose," said Fr.

More Profitable Methods He added that there are more profitable methods of improving vegetable growing in Hong Kong. "When Government is successful in its efforts to find specialists to advise on minor irrigation schemes and on the best use of sewage for fertilisation; we shall get more vegetables by sounder than the hydroponic method by helping vegetable farmers to use their skill to better advantage," he said.

NOVEMBER

(October 24-November 22)

More can be achieved by finesse and goodwill than by any other method this week. If down right tactics or controversy seem necessary, get the mover by Wednesday. Propitious for any type of

DECEMBER

(November 23-December 20) Help or encouragement' from "higher up" brings not only self confidence but money this week Good returns from anything undertaken under the supervision of an older person. Some health problem cleared up or anxiety about a relative or associate lightened early in week.

SUNDAY SEPTEMBER 25:

FOR MOST OF US: In spite of possible quarrels or mishaps, pleasant day for most people. Good for any type of entertainment, for tete-a-tetes for family affairs. FOR LUCK TODAY WEAR OR USE: Celestial blue, 6, Light sapphire.

BIRTHDAY FORECAST:

Although this is likely to be a l 1949/50 you will realise that in the business sense too. much has been achieved during that period and something begun that leads to happiness and security later.

The year may open with quarrels all round—both in business and in personal life. It looks as though you would fall out with someone near your own age who has been very dear to you during the last few months. In business life, unexpected rivals will spring up and some serious clash occur over a luxury scheme or product

Financially, the year may be rather uneven. It looks as though you would spend a good deal and that you may come down rather badiy over some speculative pro-On the other hand, you embark on some venture that promises good returns in a year or two, or you make some arrangement for future security.

It is a good year for land deals of any kind and you may inherit a piece of land or house before the year is finished. Alternatively, you make some personal linkup that leads to a more comfortable existence and possible ownership of property later.

If single, a serious quarrel may be the prelude to a Seriod of en-. during happiness. If married domestic harmony is likely to be disturbed early in the year, but restored by January. But married or single, it will be an outstanding year in your personal-affairs, and one in which older people will play a leading part.

MONDAY SEPTEMBER 26:

FOR MOST OF US: A hopeful beginning to the working week. Money easily made this moming. Good for interviews, changes, new ventures. FOR LUCK TO-DAY WEAR OR USE: Wine red 3. Amethyst.

BIRTHDAY FORECAST:

You can set out on this new year of life with a good heart, for" it promises to be one of the easiest you have had for a long

GILMAN & COMPANY LTD.

In this weekly series of articles, one of the world's foremost experts in predicting the future gives his opinions on what you personally can expect in the weeks and months to come.

Look for your birth period below and find the general indications for the week. Note that these observations are made according to the Zodiacal Signs and do not exactly coincide with the Calendar Month. For example, January covers December 21-January 19.

in income both before and after are losing money over it this an important business change year. that is due just before Christmas. Don't hesitate to re ple are not likely to bring haparrange your affairs at this time piness. A bereavement someof the year. You won't regret where among the older generanecessary financial backing will be forthcoming.

The more courageous you are the greater your success this year. So don't hestitate to make a change of business, to start up on your own, to move to another district or even another country Travel might be very profitable

Whether or not you travel, it looks as, though you would move house and that the change would make for more comfortable living. Socially too, it looks as though you would take chances and achieve success in 1949/50. It is a good year for getting year of ups and downs in more | married, and if already married. senses than one, it should prove i for extending family interests and also to be a time of assured hap- | aiming at a more comfortable piness and slow but steady pro- way of living. New friends may gress. When you look back upon I benefit you not only socially but will end the year on very good terms with someone who counts for a good deal in your particular circle.

TUESDAY SEPTEMBER 27:

FOR MOST OF US: Don't let this morning: get on with what can be speedily completed. Good for travel and for daring FOR LUCK TODAY WEAR OR US: Vermilion,

SIRTHDAY FORECAST:

Although this new year of life will bring some difficult problems, on the whole it should be a time of achievement and new Indeed throughout 1949/50 it will pay you to concentrate on fresh schemes and where possible, to make a break with the past. Little good would come from clinging to outword associations.

It may not be easy to sever ties that have endured over some years, where the other person concerned is much older than yourself, the break will be particularly hard to negotiate. But if you pay too much attention to the claims of the past or those of duty, you will be con-

Provided you are fairly to shoulder some responsibility brown, 8, jade. adaptable and ready to exert or face up to a commitment yourself over new schemes 1949. made during the war years, but 50 should prove to be a time of burdens of this kind should bepublicity, for travel, for legel steadily increasing happiness and come lighter as the months pass' If you own property, however There should be some increase you will probably find that you

> Relationships with older peoembarking upon new schemes tion is possible. Alternatively, during the next months. The you will have to pay out constanton behalf of an older woman

Your own personal affairs are under propitious stars. If single there is the likelihood of a whirlwind courtship and marriage in the teeth of family opposition. already married, disappointments concerning older people will be off-set by the success and affectionate companionship of young

WEDNESDAY SEPTEMBER 28:

FOR MOST OF US: Difficult keep to routine this morning; the more adaptable and resourceful you are the better. Evening hours propitious for entertainment and personal affairs. FOR LUCK TO-DAY WEAR OR USE: Soft blue,

BIRTHDAY FORECAST:

plans for 1949/50. What happens to you this year will probably. upset all your preconceived ideas and arrangements. There will be surprises all round during the coming 12 months.

If you are to cope with this year's problems successfully, you will need to be modern in your outlook and up-to-date in your methods. Even then, there will be periods of re-adjustment and emergency; if you can face these in the right spirit, though, they should prove the high road to

Financial - problems are likely to take up much of time. But again and again and again you will have to cope with the problem of new regulations or of changing conditions in your particular world. If employed, the "boss" may be in trouble, or his erratic behaviour affect your own plans adversely...

mal existence or routine willthe New Year. After February life will take on a more settled pattern and you seem likely to jog along fairly comfortably. Social ambitions and plans for travel or pleasure seeking would be scious of frustration and disap- vel or pleasure seeking would be best postponed until after this pointment throughout the 12 best postponed until after this

Better face the fact that one important relationship is in pro-

cess of re-adjustment this year. If a break occurs, don't try to in force for five years or more. heal the breach too quickly. Let time do the work for undisturbed and there is the prospect of a new friendship bringing happiness about Easter next.

THUSDAY SEPTEMBER ?9:

FOR MOST OF US: If you have plans for today, stick to them. Little good would result sudden changes or trying out new schemes. FOR LUCK TO-DAY WEAR OR USE: Red-

BIRTHDAY. FORECAST:

Your best policy throughout the coming year is to avoid changes and stick to your present job and environment. Provided you can do this, there will be few serious difficulties to face in 1949/50. If, however, you make unnecessary reshuffles, you wil end the year in a muddle and unhappiness.

Also, be content with your present environment throughout the you may have. Both in business and in personal affairs, it will-be. foolish to embark on new vetitures just now. Also, if in difficulties, follow the advice of older and more responsible peu-

If you have surplus money by hand, buy a house or land with it. Don't spend it on travel or on anything that promises a quick return. There is no hope of "easy for you this year, Though, if you are level-headed, you should not only keep up good income, but be able to make some provision for the future.

Health may be upset probably because nervous tension will be high between now and Christmas. But most of your ailments will have a mental and nervous origin and need not bother you too careful to follow regular routine. Pay especial attention to diet and to sufficient rest in 1949/50.

What happiness comes your way this year will come through relatives and old friends. Enticing new friendships are likely to end in disillusionment and in complications. If married, beware mischief makers: whether married or single, keep clear of domestic triangles in 1949/50.

FRIDAY SEPTEMBER 30:

FOR MOST OF US: About the best business day of the week Collect money owing or cash in on new schemes. "Gambiers luck" for many this morning. FOR LUCK OR USE: Royal Purple, 3, Amethyst.

BIRTHDAY FORECAST:

Now begins that should prove to be one of the easiest years you! an engagement now in force. For 1949/50 should be all you could desire. You find fresh scope for your personality and at the same time secure a more leisured and comfortable existence.

You will probably find you have money in hand throughout the year. But the most prop-Itous months are likely to be December and January. During this period much could be done to clear up present problems and to establish both yourself and your

HONG KONG

You crave

flood candi

Hiky Way

family in more comfortable clr

cumstances. Far reaching changes or travel would not be propitious this year. You will do better throughout 1949/50 if you remain in your present job and in your present environment. You will be able to prove the value of longstanding friendships and of business associations that have been

If will be a most interesting year if you are socially ambitious, Other link-ups will probably be and you will find that your reputation for charm and tact grows rapidly. Early in the New Year it looks as though you would make a link-up that will be valuable until 1952 at least.

Conditions this year are ideal for engagement and marriage. It you marry in 1949/50 you will find not only happiness but prosperity. If already settled, expect windfalls or some development in domestic affairs that bring you greater happiness and greater comfort."

SATURDAY OCTOBER 1:

FOR MOST OF US: Don't allow yourself to stagnate today, changes and experiments will prove highly beneficial. Good for travel, interviews, formal entertaining. FOR LUCK TODAY WEAR OR USE: Orange, 1, Dia-

BIRTHDAY FORECAST:

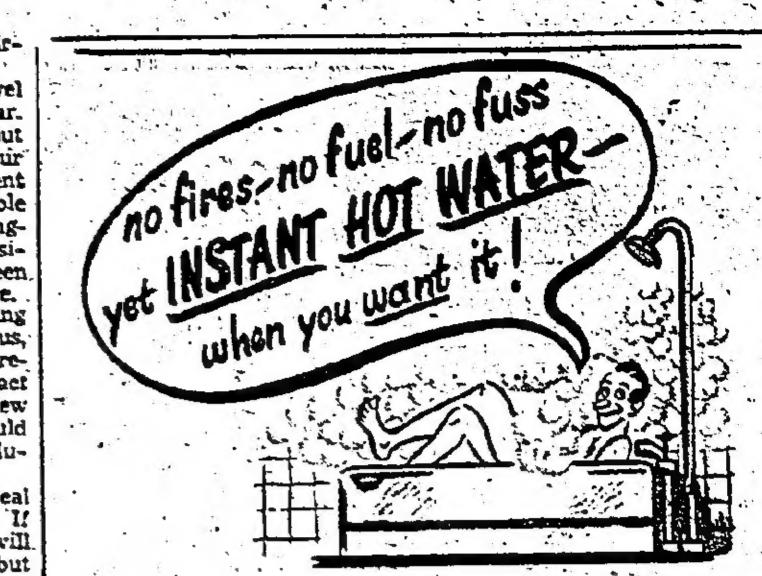

This promises to be a changeful but at the same time a most stimulating and potentially fortunate year. If you have sufficient energy and courage to face up to changes, adjust yourself to difficult situations, you will find that success has come your way before your next birthday.

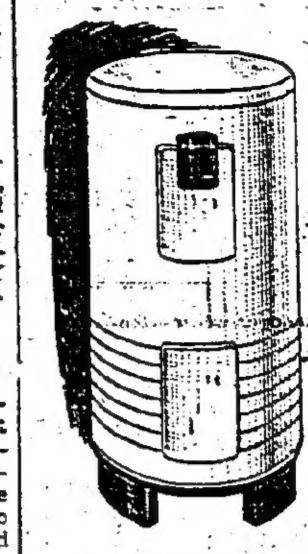

You will probably be in the mood for changes from now on. but the best time in which to set about them would be February 1950. The business situation may also, speed up about that time that you find it easy to take the plunge. If you have been hoping for a new job, and especially if you have been planning to do something on your own responsibility, you may find hand forced late in January or early in Feb-

Travel stars are strongly placed this year and if you have any ideas of going abroad they will probably work out more successfully than you expected. But journeys would have unexpected results if undertaken in 1949/50. You succeed not in what you set

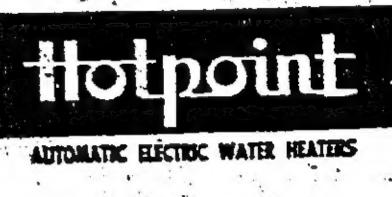

out to do but in something quite different Whether or not you travel you will probably move house in 1949/50. A change of environment is essential this year if you. are to maintain good health and high spirits. Reshuffles that include the whole family would

work out very well-You will probably be too occupled this year to have much time or -thought--for romantic problems or intimate relationships. Throughout the year close ties are not likely to be disturbed and, if you marry in 1949/50 it will probably be the result of have had for a long time. Both | married people it will be a time as regards money and happiness of ever widening interests and

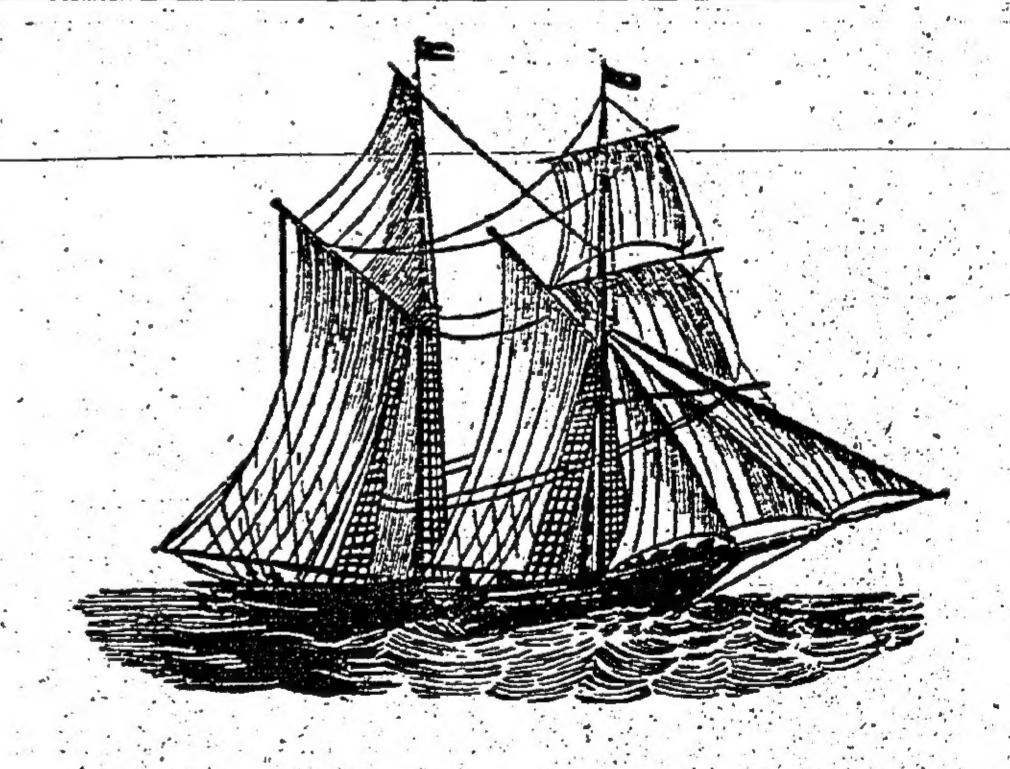

Sense demands you in--Automatic Ther-Water Heater. "Fibergins" mostat control and insulated.

The men who manned the Tea Clippers and raced them home through the stormy China Sea, knew the value of a drink which was cooling in the tropic seas and warming when they were drenched with cold spray. Beer was their stand by, giving them strength and courage, stimulating and nourishing at the same time.

tan forces.

proposal for arbitration.

The Government of India's

of scope, method and timing.

apply to this aspect only.

not implemented.

further procedure.

of a truce in Kashmir to arbitration. They consider that the "principal issue," namely, the large-scale disbanding and disarming of Azad Kashmir forces, is not a matter for arbitration, but for "affirmative and immediate

decision. This is brought out in corres- of the horrors of the invasion of pondence released today that the State in October, 1947."

passed between the Commission Sixthly, the Government of India are not opposed to arbitration in principle, but reference to arbi-tration should be on a precise and and the Governments of India and Pakistan on the Commission's memorandum on arbitration which was sumitted to the two defined issue.

Governments. India maintained that the disbanding and disarming of Azad Kashmir forces was "no more a matter for arbitration than the complete withdrawal of Pakistan forces," and declared: "Any lack 12.00-Albert Sandler and His Orches- of certainty on this issue would open the door to the aggressor (Pakistan) to benefit by his aggression."

The points made by the Government of India were: Firstly, the Government of India cannot accept the suggestion for arbitration which leaves it to the Arbitrator to determine the points on which he should arbi-

Secondly, no settlement of the dispute over Jammu and Kashmir could be just or lasting which did not take into account the moral element inherent in an act

of agression. Thirdly, the Government India holds that the attitude of the Pakistan Government towards large-scale disbanding and disarming of Azad Kashmir forces is "trial obstacle" to the restoration of the peaceful conditions required for a plebiscite.

In Jeopardy

Fourthly, India has been a en a specific assurance on behalf of the Commission that this disbanding and disarming would take place and to allow an assurance of this kind to be re-opened will be "to resile (to leap or spring) from the position reached between India and the Commission." Fifthly, if the Arbitrator Is

free to decide that there should be no disbanding and disarming of these forces there could be no fair and impartial plebiscite. If, while accepting the need for such disbanding and disarming. the Arbitrator is free to postpone after the bulk of the Indian forces in Jammu and Kashmir have been withdrawn, the security of the State will be in great jeopardy during the period that intervenes between the withdrawal bulk of the Indian forces and the adoption of measures for largescale disbanding and disarming of

The Government of India can-not possibly take this risk, which would be incompatible with their paramount responsibility to pro-tect a portion of the State under their control against a repetition

London, September 23. Operation "Bull-Dog", in which the airmen of five nations were to take part tonight in a mock air war to test Britain's air defences, has been postponed because fog is predicted.

Pilots and ground, staff from France, Belgium, Holland and the United States, were to have joined in the exercise which is planned to last until Tuesday.-

If you suffer from bruises, sprains or pains arising from inflamed or swollen joints, here is splendid news. Radian B has come to soothe your limbs back to suppleness. This wonderful all-purpose liniment has acreral unique and interesting features that lift it right out of the ordinary. When sprinkled on the affector area, that master painkiller ASPIRIN, combined with other active principles and aromatic essential oils, is introduced with wonderful effect to the very spot that With gentle massage, Radian B is readily absorbed through the skin, and penetrates deep down to the tissues and mayes. Pain, inflammation and swellings simply melt away. Radian B employs an original principle.

Soothing and highly antiseptic, Ranen B can be applied without fear of appravation to any area, however som and painful. Owing to it's complete absorption Radian B leaves no "oily" aftereffects, and can be used without risk of soiling or staining the garments. The odour is refreshing, aromanic, and quickly disperses. Diluted, it becomes a safe and effective gargie. As a strong and effective antiseptic for cuts and minor burns -s chest-relieving inhalant, and for use against mosquito and insect bites, it is effici-cious, powerful, and gentle. Be wise and place this magnificent and versatile remedy in your medicine cabinet withour delay.

Lowell Thomas Injured In Tibet

New York, September 23. Mr. Lowell Thomas, 57-year-old broadcaster and author, has been injured seriously in a fall from a horse in the wild mountains of Tibet his office said today. The U.S. Air Force has

been asked to rescue Mr. Thomas, who .. is carrying a message from the Dalai Lama to President Truman.

A radio message from Mr. Thomas said he was thrown from a horse in a 17,000-foot Himalaya pass three days after he and his son, Thomas Jr., aged 25, left the Tibetan capital of Lhass. Mr. Thomas was carried for six days by litter to the remote town of Gyantse, where an Indian doctor treated him. He was described as in great pain.-Associated Press.

********** PAKISTAN TRADE POLICY

Karachi, September 23. The Pakistan Government giving urgent attention to formulation of a new trade and tariff policy in a bid to combat competition in dollar markets due to the devaluation of many world

The new tariff policy, expected to be announced before the en of next week, is designed to promote the country's earnings foreign currency, especially dollars, by restricting imports.

The new import schedule likely to bring heavier duties on non-essential luxury goods so that the Pakistan Exchequer shall be compensated for its losses in reduced export duties which, formed quarters think, is almos certain especially in the case commodities destined for hard currency areas. -

Trade sources here Pakistan's export trade, consisting mainly of essential raw materials, now keen in dollar markets.

However, the new tariff policy is expected to grant concessions to exportable jute, tea, wool, hides and skins.

At the same time, the raw cotton export trade which, with Soviet Russia emerging as a big of Pakistan cotton, is basically sound, is likely to be granted an appreciable reduction in dulies to maintain its preeminence in Indian markets, the sources quoted said.

These momentous stated to be in the offing, are expected to place Pakistan's economy on a new and stronger footing --

India replied to the Commission that they did not feel called upon to comment on it at this stage. The Government of India added: "The stage for that will be after the points for arbitration been precisely defined and cepted by the Governments India and Pakistan."-Reuter.

VYSHINSKY ATTACKS CHINESE DELEGATE

Flushing Meadow, September 23. Speaking in the United Nations General Assembly session tonight, Mr. Andrei-Vyshinsky, Soviet Foreign Minister, attacked a Chinese Nationalist Government delegate, Mr. T. F. Tsiang, for "sordid insinuations and slanderous attacks" on the Soviet Union."

Mr. Tsiang yesterday denounced "Soviet imperialism" and asked the Assembly to consider the Communist-inspired "storm" now raging in China. -

"By distorting facts and making insinuations against the U.S.S.R., Mr. Tsiang has given proof of one thing only—of the beastly hatred of the foundering reactionary Chinese circles which he represents for everything advanced and truly democratic," Mr. Vyshinsky said.

said had been created on the cherishing its independence and initiative of the United States and | national sovereignty, would agree Britain, and was "nothing but the | to." undermining of the United Na-

of the North Atlantic Alliance measures directed towards the preparation of a new war. The Marshall Plan had meant the splitting of Europe into two camps, and had not only failed to

He said that the real meaning

improve the economy of Western Europe but had undermined completely. "Unemployment is known

have increased and is continuing to grow in the United States. where the number of unemployed is over 4.000,000." he said. "In contrast to the existing situation in the Western European countries, which bear the brunt of the so-called Marshall Plan aid, the Soviet Union, and the countries of the People's Democracies are successfully fulfilling their plans for the rehabilitation and further development of national economy."

"Dictation"

policy towards weakening and is in a strong position to with- undermining the United Nations stand India's competition which is was the principal reason for the absolutely unsatisfactory state of affairs in the Security Council, the Atomic Energy Commission, the Commission on Convention Armaments, the Military Staff Committee and the Economic and Social Council, Mr. Vyshinsky

> In all these bodies the United States and Britain were relying on an obedient majority and were trying to dictate their decisions on other States.

As a result, the Atomic Energy Commission had for almost four years not been carrying out the decisions of the General Assembly on the drafting of measures aimed at the prohibition of atomic weapons and the establishment of international control over atomic for the prohibition of atomic energy in order to prevent its use for purposes of war.

"Such a situation arose in the Atomic Energy Commission as result of continuous attempts on the part of the United States and

Vyshinsky attacked the mission their plan for internation-Atlantic Pact, which he al control which no nation,

An improvement of the situation in the United Nations was possible "only provided all the members of the organisation obwas the carrying out of military served the Charter and its prin-

"Wor Propaganda"

The United States and Britain were "carrying on a frantic armaments race, inflating military budgets, establishing ever new military bases on the territories of other States, and taking other measures for the preparation of a

"And all this is accompanied by unbridled war propaganda. which is being encouraged by these Govrenments," Mr. Vyshinsky drelated.

In the United States, direct appropriations for military purposes in 1950 were 12 times as great as the military appropriations in the years directly preceding the second World War.

"Today, the armaments race is also characteristic of Great Britain, where budget expenditures for military purposes are growing year by year and where Goering's slogan 'Guns instead of Butter's has received, at the "present time...a wide circulation in the ruling circles"

"The United States and Britain have created joint Military Staffs consisting of the representatives of the State members of aggressive blocs which are now busily drafting plans for a new war. giving a prominent part in those plane to atomic weapons on which the warmongers are pinning their main hopes.

"World Domination"

"It is surprising that this being the position the United States of America and Great Britain are refusing to conclude Conventions weapons, preferring to do without such Conventions in order to have a free hand.

"It will be recalled that civilised nations had long ago condemned the use of poison gas in wartime for the mass annihilation of human beings and had renounced the use of such a weapon.

"As far as atomic weapons are concerned, however, the Governments of the United States of America and Great," Britain do not agree to follow this path and to renounce the use of this wenpon of aggression, intended for the mass annihilation of people." Banging his fist on the rost-

rum, Mr. Vyshinsky declared "Such is the policy of the United States and Great Britain, designed to achieve world domination."

M. VYSHINSKY

the Soviet Union Invariably fights for the cause of peace and exposes the incendaries of a new war, who are trying to hurl upon the peaceful nations new and yet more terrible disasters.

Peace Pact Proposal

"The Soviet delegation, on the instructions of the Soviet Government, calls upon the General Assembly to take, on its part, measures aimed at strengthening peace and eliminating the threat of a new war that is being prepared by the aggressive blocs of States headed by the United States and Great Britain."

Mr. Vyshinsky then submitted his proposals, consisting of three points. These were:

(1) That it condemn the "preparations of a new war which are being conducted in a number of countries, particularly in the United States and Britain."

other means of mass destruction as "incompatible with the conscience and honour of nations and with membership in the United Nations."

That the Assembly unanimously express the wish that the United States, Britain, China, France and the Soviet Union "join their efforts" to ward off the "threat of a new war", and conclude between themselves a pact for the strengthening of peace.

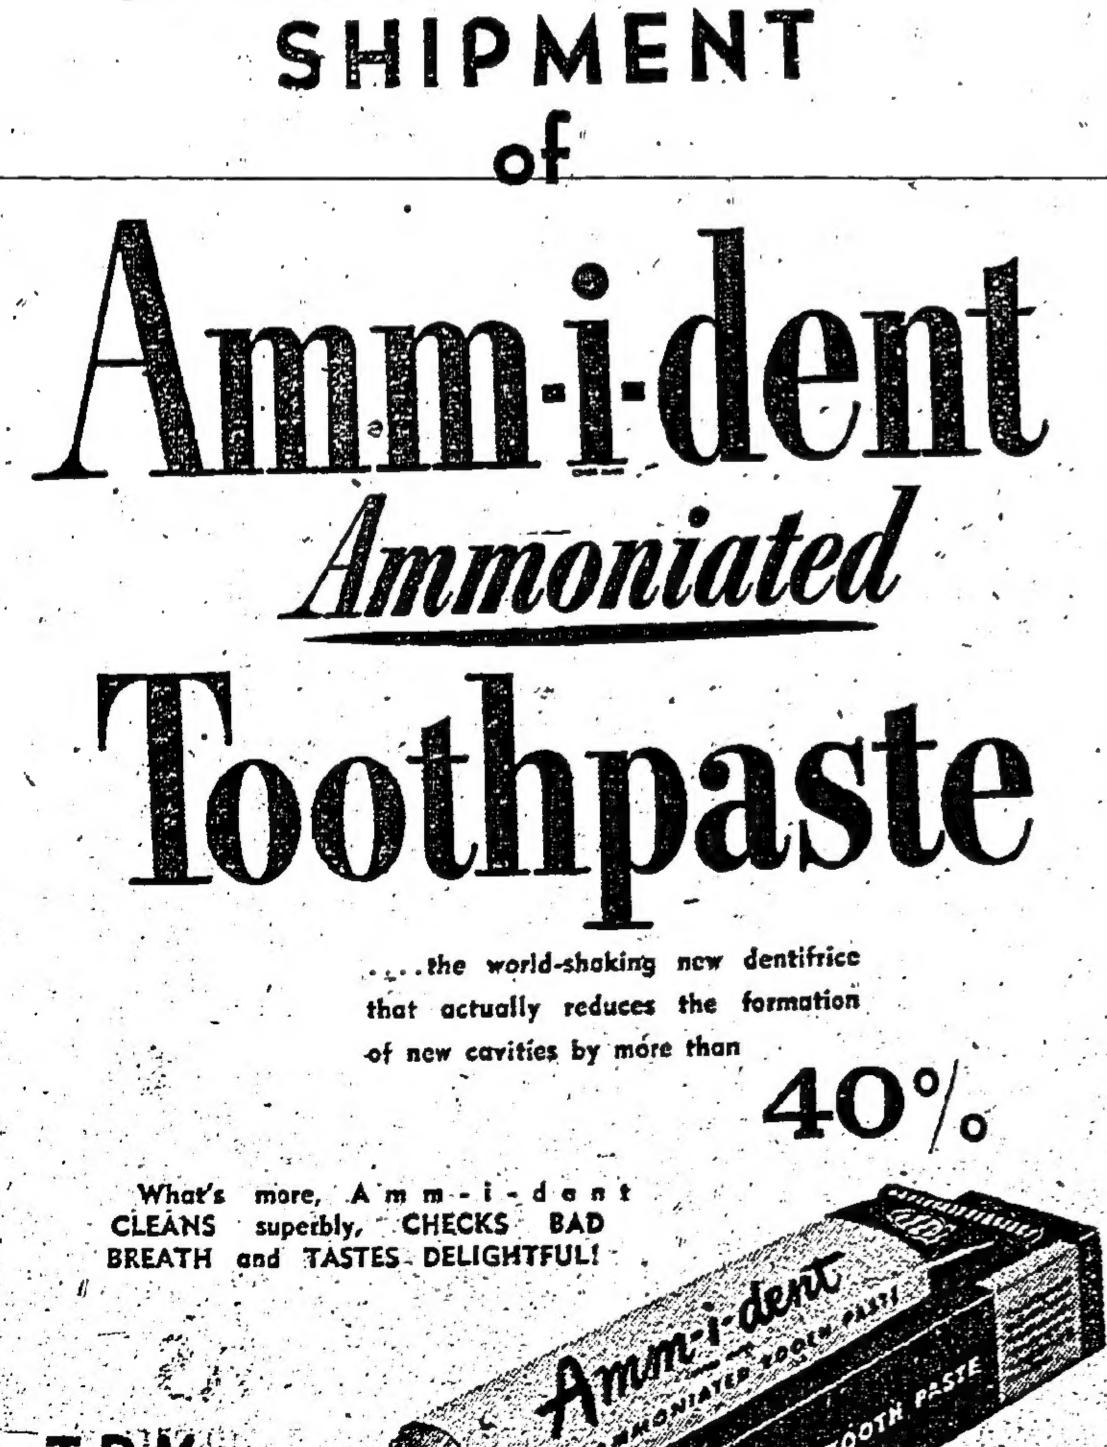

At the end of the speech Mr. Ernest Bevin, Mr. Dean Acheson and M. Robert Schuman, the British, United States and French Foreign Ministers, joined in the applause.

At no time during his speech today did Mr. Vyshinsky refer to the atomic explosion in Russia which President Truman reported, nor did he make any references to the Soviet Union possessing the atomic bomb.-Reuter

the past 30 the past dressed in an old apron and bedroom shoes, she has been bananas, red cabbage, onions and market place of Bonn, the Rhineland town where Beethoven was

for British and American cars of people staying in there," and she pointed over to wards the luxury Hotel am Goldenen Stern at one corner of her domain.

"This old market place is the heart of Bonn. It will kill our town to take it away."

and House of Commons of the new Republic of Germany celebrated their first birthday:

When the burgers of Frankfurt first heard that olde worlde Bonn might become the capital of the new German State they printed a cartoon showing how all the .a offices would have to be housed

And perhaps the cartoonist was not so very far wrong. For part of the new State Chancellery will have to be housed in the Koenig Museum along with dozens tourist. Stuttard reports that stuffed frogs, humming birds and the same time. what with students and tourists, a pair of giraffs, for which no space can be found elsewhere.

> At the cost of a £1,000,000 the Germans are still turning their former teachers' Academy into a Parliament building and have been putting up some of the buildings in days.

It is a fantastic achievement even if (as is probable) the whole place still looks as untidy as a film set on opening day.

It has all been a huge gamble. Last February an Aachen architect Dr. Schwippert, who had specialised in church architecture, and his assistant Leuer, an engineering specialist, were told to start planning and building Germany's Whitehall simultaneously. And they were told to build "on spec."

Frankfurt after all was chosen as the West German capital, magnificent rooms would have to ters are surrounded by barbed and Tessa's be used as Beethoven concert parents last night. Their father halls, or as a part of the univer-

AID FOR CHINA

Paris September 23. Professor Adam Schaff of Poland today told delegates of the United Nations Educational, Scientific and Cultural Organisation, which is wondering how to use more than \$54.000 earmarked for "emergency reconstruction" in China: "There will be no problem in 1950 there will mot be two governments then"...

Earlier's Professor Chen Yuan, the Chinese delegate, complained that allocated equipment had never reached China. "My Government was never consulted".

(A TNESCO executive said that out of \$85,350 allocated for reconstruction in China di 1948-49. \$2.076 worth of books and 87,938: Worth of book coupons were with the Organization's representative in Shanghai, \$25,000 worth of equipment : was afored in America or Britain waiting for the political situation to clear

roposed that the Director-General: Jaime Torres, Bodet; should idminister the unspent \$54,000. Submilting this proposal. Pro-India's Ambassador to Russia and Chairman of the Executive Board, spoke of the daily changing scene

Professor Yuair said that there sehimit the Communist lines but in "Free China", 40,000 middleschool students and hundreds of desks, chairs,

An Incredible Summer

the 94th time in the past three months the voice of the announcer came over the radio this week-end and again the forecast turned out to be

this had been Britain's driest summer for 28 years. And, according to Kew, where they measure the rain, there had been only two drier summers since rainfall records began (in-1871).

Almost every day some weather record is smashed at the Air Ministry, and if the sun goes on shining until the end of this month the experts may as well write them off and start all over again. So let's sum up this summer in hard facts; gauge what a difference the sun makes to a nation that still thinks it a novelty to wear a natural tan from spring to September.

Down on the farms the yeomen of England count the blessings that the sun has brought, but, true to tradition, grumble also at the damage done, by drought. What will it all mean to the

larders of the land? Thank the sun for an expected wheat yield of about 30.4cwt, to every golden acre, compared with an average over the past 10 years of 18.7cwt, Barley has also done well and the acreage yield should be 19.1cwt., against an average of 17.5.

Orchard Crops

It's the same sunny news from the orchards of England. Nearly 500,000 tons of apples have been picked from the sun-warmed trees of the lovely Vale of Evesham and Kent, and Britain's other fruit lands, and the 31,000-ton cherry crop was easily a record.

Pears also bloomed in the nonstop sunshine, and the estimated crop of 43,000 tons will not fail far short of the record 1942 crop of 44,300 tons. Plums didn't fare so well, but you can't have it all ways, and the estimated crop of the ten-year average of 123,000

Potatoes, too, are below the average of seven tons per acre.

Holiday Front

holiday fronts and you really see how the sun can change the face iolidaymakers who have come to his heat-hazy country from parts of the world have had Ilusions shattered:

1. That the sun rarely shines

its post-war brilliance. In June, July, and August the sun shone for days on end and

attention than ever before. Back and over to those smooth visitors. be the best Wimbledon ever helde their air and sea fares.

All records were broken in attendances, weather, and gate reipts, and foreign entrants wholeheartedly agreed that Winn-

Racing Records

post-war records, and old rowing men lyrically described the Royal Henley Regatta as "the most brilliant in living memory." It was certainly the most profitable since the end of the war.

and organisers hope that it marks the end of the slump on the fashionable reaches of the Thames between Henley and Maidenhead. New Zealanders made a profit of about £10,000. Which considering that their expenses are over £20,000, tells its own story of the

difference that sunny days make. All Britain's festivals, notably Edinburgh and Malvern (revived after a ten-year lapse), flourished is now firmly established as the cultural centre of Europe.

ment at Olympia was a "sell-out" crowds were so great that larger stadium at Earl's Court has

RUSSIA'S ATOM

Communists all over the world can rejoice this weekend, in the knowledge that their country is now potentially destructive as "capitalist imperialist" America. Russia's military capacity may in future be as devastating as its psychological warfare has been in the past. For it apparently has the atom bomb.

Yesterday's announcement will cause no surprise, but neither can it cause anything but the gravest misgivings in what is left of the free world. For the most shattering weapon of all time is in the hands of maniacal fanaties who may not hesitate to throw all civilisation into ruins in their pursuit of world domination.

We cannot agree with the reassuring armchair observers who claim that the position is now stalemate, and that the Kremlin will never attack with the atom bomb because of what would happento its own cities. However fantastic it may sound, the record since 1917 shows that the Politburo might not hesitate to sacrifice more than so doing it could guarantee an entire world in ruins, and ready for global Communism.

This may be dismissed by the normal, balanced mind as completely untenable, pennydreadful sensationalism. Unfortunately, however, there too many inescapable facts. A country which is capable of keeping nearly 20,000,000 of its own citizens in forced labour camps of such severity that they die after a few years, and thinks nothing of uprooting the population of whole provinces to build cities in the desert a thousand miles away, will be willing to pay a stupendous price to achieve its dream of

world conquest. No wonder her "diplomats" and intimate conversations: have been aggressive and entirely unco-operative at international conferences, their attitude can be expected to become increasingly offensive as they make the bomb more efficient, and begin to stockpile. It is not true to hold the public's attention. say that the next war will spell disaster for both sides. The term is relative. All nations may be in ruins, and democratic capitalism wiped out. The only alternative to complete anarchy would be Communism, which might conceivably succeed if suf-

ficient leaders were available. Those of us who are British must inevitably think once again of what will happen to our little island off the coast of Europe. We have said more than once in these columns that America is appallingly wrong in considering the vanced base in the next war. The only faint hope of survival the homeland has is to remain neutral, however impossible such a stand would be. If Russla has sufficient plications, and of course the atom bombs, she could destroy and render the whole something too dreadful for country radio-active within a anyone to credit So let us few days, in the greatest dis- go on with the welfare state regime there has been no agreed

to March 31, 1948, portrays view? in a few statistical tables the present scale of taxation is who is going to strive by hard effecting in the social conditions of Britain.

Till the advent of Socialist Government the orthodox doctrine was that taxation should be kept as low as possible consistently with the due fulfilment of the State's obligation to defend the realm, maintain law and order and provide certain essential publie services: these needs being met, the more money that was left to "fructify" in the hands of its possessors the better.

An End To

But the wheel has turned and taxation is regarded by our present rulers as a prime instrument achieving a social revolution. As a prominent Labour member expressed it in the House of Commons: "One of the necessary purposes of taxation is to redistribute income in favour of the distribution does not take the formation of character and in each of the produce of taxation but is effected by relieving, the mass of the people of the necessity of providing out of their own means for a large part of their needs, this being done through subsidies and so-called free ser-

A few figures from the Commissioner's Reports show clearly what is happening. In the year 1947-48 it appears that, after paying income-tax and surtax, only 70 persons were left with a disposable income of over £6,000 To attain £6,000 a year net i was necessary to have a gross £5,000 required the possession of a gross income of about £50,000 it was necessary to make nearly l £4,000. An it must be remembered that these net incomes have now less than half their former purchasing power.

gether, and nearly all the publicity went to Sir Stafford Cripps. Mr. Bevin and Mr. Acheson held long little light about them has so far emerged from the communiques The old-fashioned diplomatist might not complain of this; he liked to mystify the public. But can the diplomacy of modern democratic nations be so handled? Statesmen need public opinion behind them, and for that they must

Of course a line cannot always be drawn between economic and diplomatic affairs. The balanceof-payments problem created by America's persistence over a long period in buying enormously less than she sells may seem, at its roots, to have little concern with the Foreign Offices. It would be there and would assume fundamentally the same form, whether America's foreign policy were isolationist for interventionist whether she took the side

Europe or that of Russia. On the other hand. Marshall Aid, as its very name indicates, is an affair of foreign policy. It is quite true that it was originally offered to Russia no less than to the Western nations. But that was only because Mr. Marshall way some of the palliatives proposed for the balance-of-payments

RUSSIAN POSSESSION OF THE ATOMIC BOMB

Development Expected By Western Powers DANGER TO BRITAIN

London, September 23. The first detailed examination of the military impact on the Western nations of Russian knowledge of atomic fission will take place when the Atlantic Pact Defence Ministers meet in Washington next month.

Observers here consider that the news of an atom explosion having taken place in Russia is likely to be more important in the psychological sphere than in the sphere of Government policy.

London and Washington are understood to have based their plans since the end of the war on the very definite assumption that the Soviet Government would also possess the atomic bomb and other ultra-modern weapons of war within a very limited number of years.

government plans and decisions, counted by Western experts.

design. Ultimately Gunner Brand's design was accepted. This was period. er carried the title straight across the left-hand side In from the margin a 2" red stripe vertical from the title panel to the bottom margin. On the right-hand side top the Corps Crest carried out in gold colour, beneath, a scrolled giving month and rest. volume number, and list of main articles, carried out in red letters on a white background the rest of the background being navy blue. The cover was very attractive indeed; but there were many who considered the title politically significant! The body of the magazine was normally fifty pages of reading matter, carrying

pages of advertisements. The Corps Crest, incidentally, was the coat-of-arms of the British Municipal Council (Tientsin) with scroll beneath reading "TBME Corps" and the Battle Honour, "Tientsin 1900." This was carried out for the Corps Cap Badge. The Corps buttons, brass and silver, carried the Council's Motto, "Committe Inter Gentes," in place of corps designation, with the Battle Honour beneath. The printing was carried out by

To boast instead that "productivity" is up compared with post-Kaiser war years is to make as childish a claim as that we are also doing better per man-head than in post-Napoleon war years.
What the Socialists have yet to

realise is that even with the primitive industrial techniques of a century ago Britain was then way shead of all competitors. The sad fact is that she is no longer there.

The Socialist reactions is to blame the Americans. What! The dirty dogs give us aid, and still manage to out-produce us in the world markets! More unfair than ever! The British voter cannot possibly be to blame-on the eveof a general election, anyway!

Sloppy Acting Mixed up with the nonsense at

home of five-day weeks and seven-hour days goes the sloppiest think and acting upon Colonial and Imperial matters. Surely only Ministers whom the gods had first made mad would have handed over Burma to a regime of professors and pupils, bandits and Bol-sheviks in the belief that they would inaugurate an era of peaceful progress. Thus, at one stroke, the new statesmen of Socialist Britain condemned millions of peasants to anarchy, poverty, and

peasants to anarchy, poverty, and famine—and threw away—the means of sustaining both them and the working masses of Britain in some decent standard of life.

It must be allowed that the Tories were not much wiser, though their folly was of a different nature. Having for generations refused to recognise that the "Unchanging East" was changing at the pace of jet-propulsion, they suddenly accepted the lifea that the power politicans who were riding the whiriwind of Asia's awakening were really quite "enlightened democrats."

Thereupon British Tories began to compete with British Socialists in breaking up the British Em-

blan.".

A high U.S. security

Washington, September 23.

Mr. Acheson said he knew of the Russian explosion when he delivered his major policy speech in the United Nations General Assembly on Wednesday.

There was no significance. the timing of President Truman's announcement, he said, and added that the central and important significance of the announcement was that the President announced the facts as soon as was entirely sure of his ground

Mr. Acheson-waid-the-could-see no necessity for any change in the position of the Western the United Nations in their approach to world control of atomic

Nations insisted upon an effective method of control, he said.

Effective Plan Needed He added that any plan agreed upon must be truly effective in practice unless it were to become a mere illusion on paper. He thinks it would be foolish

to break the secrecy which had surrounded the atomic talks. Regarding the atomic con ference among the United States, Britain and Canada, Mr.

Acheson does not believe the Russian ... explosion will have much bearing on these negotiasumme the Bussians had manu-

factured an atomic weapon which they had successfully exploded. Important Test He told the press he had no knowledge of any other atomic exploit—in Russia or elsewhere

He could not reveal precisely when or where the Russian explosion occurred. He could not speculate on what was in the minds of the Government of Russia, but added that

perhaps possession of an atomic weapon would provide a very important test of their intentions regarding atomic control. Russian explosion came as no surprise, he added.

Mr. Acheson also disclosed that the Western powers did not have knowledge of the explosion when the famous midnight conference by Mr. Truman and his Cabinet was held on atomic energy at Blair House:--United Press.

GOING TO

London, September 23. Mr. A. V. Alexander, Minister of Defence, is sailing for the United States in the liner Queen Elizabeth on Thursday to attend the first meeting of the Atlanic atomic weapons race is no." - Pact Defence Council.

The meeting is expected to assume added importance as the Defence Ministers of the Atlantic Pact powers will be able to study, with the help of their military, experts, the impact of 2 the Soviet possession of atomic bomb on the defence of tude of the atom bomb used on Western Europe and the United Japan."

Apart from this urgent question, the Defence Council, which holds its first meeting on October apparently had an engine failure 5, will plan measures to organise a few seconds after its take-off on against possible aggression and a routine training flight and it will set up a military commission, exploded on the runway.-United to be made up of the Chiefs of Staff.-Reuter.

America Knew Of Soviet Bomb Within Few Hours

Washington, September 23. A special corps of American observers flashed the news that Russia had produced an atomic explosion within a few hours of the detonation.

This was disclosed tonight by Mr. Frederick C. Osborn, permanent United States representative on the United Nations Atomic Energy Commission.

"I am sure the report is correct," he said.

ped to know. I said in the don statements, said: "Until we Atomic Commission that we have exact information, the Com-would know within a few hours, missariat can make no comment." from the change in the amount of radiation in the atmosphere. We have observers at different

Other comment was as follows: 'The Dean of Canterbury, Dr. Hewlett Johnson, who was Moscow in the past few weeks, stated: "I would not be surprised to learn that such an explosion

"I know the ability of the Russian scientists, but they are more secretive than other nations. "I also know that they

United for industrial purposes than in making explosions to kill people," he added.

The Secretary of a prominent British scientist, Professor J. D. Bernal, who was in Russia with Dr. Johnson, said: "If the Professor had heard of or seen an explosion he would have told me. He has revealed nothing he was unaware of the reported explosions."

Scientists Silent

A spokesman of the British Atomic Scientists' Association. whose membership includes some of Britain's top-ranking atom men, said: "The atomic detection agencies are all in Government hands-mainly in the United States.

"The Association has no means of recording such an explosion." Government seismologists (who record earthquakes and other eruptions) said that without official permission they could make no statement."

But a Greenwich Observatory unlikely that a Rumian explostruments because of Britain's traordinary earth geographical position."

Professor P.M.S. Blackett. member of the Government Ad-Energy, declined to make comment on the explosion. Nobel Prize winner.

aroused a storm of controversy few months ago by supporting the Russian point of view atom control.

Not Surprised

A spokesman of the Soviet Embassy in London said: "This is the first I have heard of it.

Canada's representative on the United Nations Atomic Commission. General McNaughton, said: "I am surprised. The explosion occurred a year before most people thought it would."

Mr. Eugene Rabinowitch, Editor of the Bulletin of Atomic Scientists, -- said in- Washington: gone off by mistake." "No explosion could be made on small scale. Any explosion would have to be of the magni-

Powder Keg Of Europe

For well over a century the Balkans have been the powder keg of Europe. Their internecine quarrels, their savage little wars, their family feuds and political vendettas have cut right across any attempt at solving their problems of the Continent

Now, once , again, it is there, between the plains of Bohemia and the classic isle of Kythera, that the cold war blows hottest. The explosion might come at any moment. And it is likely that the fuse will be Albania.

"Shkiperia," or the "Land of the Sons of the Eagle," as its inhabitants call it, is small, remote, and impoverished. Few Westerners ever want to go there. A lot of Albanians, in fact, love it none too well, preferring to emigrate to Greece or the United States.

But those who remain to live in the green mountain fastnesses are tough, rough, and ready any time and for any reason to roll up their sleeves and "take on anybody,"

The fact that today Albania is Communist, at least an the surness. Almost singlehanded and on the heels of the Jerman and with much Marxian bombast, Atbania today is "taking on" its two larger neighbours, Jugoslavia and Greece.

MAKES By ARTHUR

MORLEY Lord Fairfax of Cameron, former Grenadier Guards officer and old Etonian, has become the Australians' favourite peer.

He is 26, good-looking and an excellent mixer ("Call me Tom") But the real basis of his popularity is that he tells the Australians what they want most to hear that millions of Britons and their industrial wealth can and should be transported to Australia.

He believes the British people should be taken to the source of food, and raw materials, instead of taking the food and materials to the British people.

Australians are applauding vigorously from one end of th country to the other. Lord Fairfax, wants to move to the Dominions 10 to 15 millions

of British workers, with their families, factories and business organisations. He says that British economic troubles are due basically to the fact that food and raw materials

must be imported. He would siphon off all population above the number British agriculture could feed. His welcome in Canberra was warm. He has received the bless-

ing of the Australian Immigration Minister (Mr. Arthur Calwell), members of the British Cabinet. Calwell was disappointed at the lack of enthusiastic support in Whitehall and Downing Street. Lord Fairfax has also been given the support of the Prime

Minister, Mr. J. B. Chiffey. But whereas Lord Fairfax talked broad principles with Federal Government leaders, he got down to business with the State Government premiers.

Lord Fairfax received assurances of Queensland Governabout the area giving advice; and ment's support before touring possible factory sites in the tropi-

The Outline Of Beauty:

LOVELY LIMBS FOR THE LADY

By CLAUDIA

When we come to consider arms and legs in their relation to the outline of beauty, the trouble is invariably one of two things. Either they are too thin; angular and bony, or they are too solid, fat and ungraceful.

Sometimes, in addition, there is a roughness of skin texture at the bony parts, where the covering of flesh is thin—the elbows and knees particularly.

"Cycle" lying on your back on

Cotton Beats Mangrum To

Walton Heath, Surrey, September 23.

Henry Cotton, Britain's greatest golfing personality today put out the two remaining Americans, Johnny Palmer and Lloyd Mangrum, from the British professional match, play champion-ship on the Walton Heath course, and so reached the final for the sixt's time.

Cotton has won the event three times, as he has the British Open chanpionship. He withdrew from this year's Ryder Cup team because he did not think he had enough time to prepare for the

After beating Palmer by two holes in the quarter-linal morning, Cotton knocked out Mangrum by four and two in the semi-final.

He has obviously come back

to his best form and if a score of 67 against 69 when facing play against Mangrum did. In tomorrow's 36-holes final Cotton will meet Dai Rees, another of Britain's outstanding players, who beat a fellow Ryder Cup man, Sam King, by five and four, in the second semi-final.

A buge crowd went off with Cotton and Mangrum and Stewards were sometimes powerless as they raced for vantage points after shots had been play-

Mangrum holed from 12 feet to save the first hole after being bunkered, and he snatched another half after being bunkered at the third, when Cotton took three

from the edge of the green.

Cotton pitched dead from a bunker for a win at the fifth, but he was unable to prevent the game being level at the sixth.

Mangrum missed the green at the short seventh to fall behind again, win the eighth, but lost the ninth, where Cotton's approach stopped two feet from the pin and the British player turned up one with both men out in 36.

Cotton Turns On Heat

Cotton turned on the heat to become three up, holing from 10 feet at the tenth, and getting down another good putt for a two at the eleventh. He then won a remarkable 12th hole, where Mangrum was twice stymied. Now four up, Cotton faltered at the 14th, to lose, but made no other sup and, after a half at the 15th had left him dormy three, he won the 16th, where the American drove into the rough, and finally picked up to concede the hole and the majch.

in the other semi-final, Dai Rees led Sam King all the way after winning the second and third holes. He was four up after six holes and still four up at the ninth.

Rees never faltered and with a five and four victory qualified for the final. In this morning's quarter-finals,

Cotton had gone round in 67 to. beat Johnny Palmer, the 31-year Victoria's claim to dominate old North Carolina player, who ar back as 1900. out by the fact that all the mem- Mangrum beat Charlie Ward, Whether the club was too ex- bers of the team which will tour one of the British Ryder Cup survivors, and the leader on the sea son's British averages, by two boles.—Reuter.

HEAVY QUAKE IN TURKESTAN

Amsterdam, September 23. The Dutch-seismograph station at De Bilt registered an extra ordinarily heavy earthquake ir Turkestan in Southern Russia on July 10. Scientists at the station' said it was a very heavy quake. The meteorological station of Koenigstein reported today that it had recorded an earth shock apparently centred in Russia, dur-In that year the Australian team ing July, but said it was probably won every match and lost only 13 not an atomic explosion—United

Soccer Competition (By "ROYER")

Stanley Shield

Plenty of interesting football was seen on the Club Ground at Happy Valley yesterday afternoon, when a full programme of TO games in the Stanley Shield Seven-A-Side Charity Soccer Competition were decided.

Quarter-finals, Semi-finals and Finals which will be played this afternoon are expected to provide even more thrilling soccer than that witnessed yesterday.

In the opening game yester-day, the Portuguese Catholic Association were definitely un-lucky to be eliminated from the Competition by Chinese

ponents and made the Chinese fight every inch of the way for their 3-2 victory.

The game between 42 Com-Mrs. Rife (Colony); T.E. goals to one, the Commandos die

The sailors put up a gallant fight and had their forwards 9.30 a.m.-Mrs. Kite v Mrs. shown a little more steadiness

> Although they have only taken part in two games, the Commandes have already created a very favourable impression with the Chinese, who ad mire their crisp, clean play and direct methods. The first time shooting of the Commandos has also made a . hit with the Chinese.

Collegians Win

The Collegians, who eliminated Club (A) from the Competition on Friday afternoon, again proved themselves to be giant-killers yesterday, when they scored popular and well-deserved victory over Kit Chee.

The final score was one goal each; with the Collegions gaining the decision by the odd corner in

SUNDAY HERALD SPORTS SECTION

HONG KONG, SUNDAY, SEPTEMBER 25, 1949.

Many Upsets Feature Yesterday's Race Meeting

The holder of cash sweep ticket No. 77534 at yesterday's races at Happy-Valley received a rude shock when less than 15 minutes after he had been slated to receive a prize of HK\$30,492, Tunny, the pony on which the ticket was drawn, was suspended; and his prize was reduced to the 'also ran' level of HK\$1,000 only.

Tunny's suspension followed an accident in the last race, the Battersea Park Handicap (Third) Section), when shortly after the start Marber, ridden by Mr. W. Williamson, got sandwiched and was knocked against the rail opposite the stables:

Marber fell and got pinned third position following the dis-Williamson managed to crawl its lucky holder the third prize clear. Marber had to be dragged out but miraculously were frown at half mast through-

escaped injury. Mr. H. W. Mok, Tunna's rider, the Club's Secretary, Mr. C. was suspended by the Mewards Bernard Brown, who died recentuntil further notice for bumping, ly,

and crossing. This was not the only accident at yesterday's races, though none of them was serious.

Shannon, in the third event off, as it dashed against the barrier in a false start Mr. Ostroumoff was unhurt and managed to ride in the race after Shannon had made one round, of the course by itself without a jockey. Hing.

In the seventh event, in another false start, Mr. H. Maitland was thrown from The Chief, but he suffered no in behind time.

Poor Times The races yesterday were with- (W.F.M. Cook), 650, 495; Nervous citing finishes except in the last; event. Racing time was well be- Sparkling Eyes, 141 (J.A. Auchnie), 292,

low record. was a day of keen disappointment, as in one upset after another, outsiders took the winsi and places, resulting in a sustain-

ed good pay-out on the parimutuel. The biggest win dividend was HK5256.70 on Constant Star in the second race; and the biggest

place dividend of HK\$45.60 was drawn by Nervous Witness in the first race. For attendance yesterday's \$40.70, \$13.50, \$18.90. races were an unqualified suc-

ENTRIES FOR COLONY

More than 200 entries were received for competition in the Colony Swimming Championships arranged for the middle of next month, with heats being swum off by October 7.

Among the large number of competitors from the Victoria Recreation Club is Luckie Rose, the Colony's sensational woman swimmer who holds five records and six titles.

not in the same form as last Men's 3' x 100 yards Medley year, Luckie has been training Relay: VRC "A", VRC "B", VRC hard during the last few weeks "C", Eastern AA. to be ready to defend four of She will also be her titles. swimming for the VRC women's Diving: S.H. Wong (VRC). In relay team...

A large number of entries have been received from the Army and the Royal Navy. The Army, recently seen in grand sporting competition against various clubs, are exceptionally keen in taking part in the Championships. "
